How does Asset Care work?

Optional Continuation of Benefits rider can extend LTC benefits beyond the base face amount

Asset Care is whole life insurance that allows access to 100 percent of the life policy death benefit to help pay for qualifying long-term care (LTC). By using an asset based LTC policy, you could reposition an amount of qualified funds (401(k), IRA, 403(b)) as a single premium into a specific life insurance policy designed to provide LTC benefits.

Benefit Triggers*

You cannot perform at least two of six Activities of Daily Living (ADLs), which include bathing, maintaining continence, dressing yourself, eating/feeding yourself, toileting (including getting on and off a toilet) and transferring (for example, from a bed to a chair).

You request care as a result of a severe cognitive impairment, such as Alzheimer's disease.

*To be eligible for benefits, the insured must be a chronically ill individual with qualified long-term care services provided pursuant to a plan of care prescribed by a licensed health care practitioner.

Elimination Period

There is no elimination period to access LTC benefits for Informal Care, Home Health Care, and Adult Day Care. There is a 90-day elimination period for Assisted Living, Nursing Home Care, and International Facilities.

Provides for more than just nursing home care

Our LTC solutions can help you pay for almost any type of care and can progress with you as needs change. Examples of LTC include:

- **Informal care:** Some early LTC needs don't require specialized knowledge or physical intervention, and those needs can be met by family or friends, if desired.
- **Home health care:** This category includes a wide variety of medical and non-medical services that can be paid by your benefits, allowing you to continue living safely and comfortably at home. This can be provided by a licensed **home health care agency** or an **independent provider**, licensed or certified if required.
- **Adult day care:** Centers are designed to provide care and companionship for older adults who need assistance and/or supervision during the day.
- **Assisted living:** For individuals that need help with daily care, but not as much intervention as a nursing home would provide.
- **Nursing home:** Also called skilled nursing facilities, nursing homes provide a wide range of health and personal care services, focused more on medical care than most assisted living facilities provide.

Note: *Not all features and benefits of the policy are shown here. For additional details of all features and benefits, please see the policy.*

Caring expertise at every step

If a long-term care event occurs and support is needed, you and your loved ones can feel confident they'll receive more than just the funds to pay for necessary services. At OneAmerica Financial, we help create a community of support and care, and you'll see and feel that in many ways.

The vast majority of Americans want to age at home.¹ Asset Care allows for long-term care benefits to be received under either cash indemnity or reimbursement (with the ability to switch as needs change). Giving you and your loved ones the best of both worlds in terms of flexibility.

While Asset Care is designed to support home-based care, should your needs progress, your policy also provides benefits for most other care settings including assisted living and nursing homes. Regardless of where you receive care, OneAmerica Financial also provides the support you need to maximize your benefits.

Table assumes policy and rider remain in force and values have not been decreased by any loan balance or withdrawals made through a given year.

*** Values do not reflect any withholding for taxes. If tax withholding is not waived, the life insurance policy will be issued using the net income generated from the annuity minus withholding and will have a smaller face amount and LTC benefits than illustrated.**

****** The amounts shown in this column are cumulative and assume LTC benefits begin to be paid for one insured in that policy year and the monthly maximum benefit is used for the entire duration selected with the values continuing to increase on each policy anniversary as a result of the inflation option selected.

Annuity Premium	This is the premium paid by the policyholder for the annuity.
Cash Indemnity	Cash Indemnity benefits pay a specified benefit for long-term care independent of actual cost of care received.
Cash Surrender Value	The amount the policy owner would receive upon a full surrender of the policy. Cash Surrender Value equals cash value less any loan and loan interest. Any long-term care benefit payments received will reduce the Cash Surrender Value.
Continuation of Benefits (COB)	The COB rider is optional and provides monthly benefit payments for qualifying long-term care expenses after the base AOB rider has been exhausted.
Death Benefit	The amount that will be paid to the beneficiary in the event of the insured's death or, for a joint policy, after both insureds' deaths while the policy is in force. Any long-term care benefit payments received will reduce the Death Benefit.
Elimination Period	Upon being diagnosed as chronically ill, this is the number of days of qualified care that must be provided before having access to long-term care benefits.
Face Amount	This is the dollar amount of life insurance chosen at issue to determine the death benefit and amount of long-term care benefits available under the policy and attached riders.
Inflation Protection Rider (IPR)	This optional rider increases the Monthly Benefit Limit and Total LTC Benefits by the growth option selected, compounded annually.
Life Premium	The portion of your premium used to fund the life policy Face Amount.
LTC Premium	The portion of your premium used to fund long-term care rider premiums and may be tax-deductible: AOB, AOB IPR, COB, and COB IPR premiums as applicable.
Monthly Benefit Limit	The maximum monthly amount available to be received for qualifying long-term care.
Premium Bonus	This is additional purchasing power provided by OneAmerica Financial. Just like premium the client would pay, this purchases additional Face Amount and long-term care protection.
Reimbursement	Reimbursement benefits pay a benefit amount equal to actual cost of care received up to the long-term care Monthly Benefit Limit.

Key Terms

Repurposed Asset/Income Base	This is the Annuity Premium plus the Premium Bonus.
Total Annual Premium	This is the 10-Pay premium amount that directly funds the life insurance policy, including the costs of the riders. Usually, these premiums are funded by the Annuity Income Payments. However, in some scenarios, policyholders may choose to pay premiums directly for the first year(s).
Total Cash Surrender Value	The accumulated value of the combined life and annuity policies, minus any surrender charges and any indebtedness, which is available to the policyowner upon full surrender. Surrender charges are a percentage of the annuity policy's accumulated value. Any long-term care benefit payments received will reduce the Cash Surrender Value.
Total Death Benefit	Amount from the combined life and annuity policies that will be paid to the beneficiary in the event of the last surviving insured's death while coverage is in force. Any long-term care benefit payments can reduce the Death Benefit.
Total LTC Benefits	The amount payable for qualifying long-term care incurred by either or both insureds. The total long-term care benefits can change due to loans taken, face reductions, and long-term care benefits paid.
Waiver of Premium	Provides that all required premium for the policy and associated riders will be waived after the insured has been certified as a chronically ill individual, has satisfied the applicable elimination period, and has incurred covered expenses or is eligible for cash indemnity benefit payments during the month in which premium is due.

Premium Bonus

The annuity premium amount is not the only money used to fund the Life & LTC insurance policy. An additional 25% is “bonus” money that OneAmerica Financial provides towards each life premium for the Annuity Funding Whole Life option.

Annuity Premium Amount:	\$149,999.68	(Client)
+ 25% Income Base Bonus Amount:	\$37,499.92	(OneAmerica Financial)

Administration — Understanding Rounding

With having easy, automatic annuity payments funding your life policy, we sometimes have small differences that occur between what is requested & what is administered. The administration system feeds the values in your policy pages-but some of the values may differ slightly from when a quote was first run. This is because our system calculates whole dollars of Face Amount.

An example (costs vary):	• \$357,722 Face Amount	(Annuity Premium: \$199,999.09-\$199,999.72)
	• \$357,723 Face Amount	(Annuity Premium: \$199,999.73-\$200,000.26)
	• \$357,724 Face Amount	(Annuity Premium: \$200,000.27-\$200,000.72)

If we receive **\$200,000.00** in premium, you can see from above that this will purchase **\$357,723** of Face Amount. You would receive the same benefits for **\$199,999.73** in premium. If a policyholder wants to make sure, to the cent, that they are paying the minimum premium for the benefits they are receiving, this value can be found on the first Ledger page of the quote or in the Breakdown of Values section above and that exact amount can be sent to us. Otherwise, the small difference in premium (in this example, **\$0.27**) is not refunded.
